

RAYEESA MAHMOOD

Full-Stack Developer | Anthropic AI Specialist | Technical Lead
Hyderabad, India | +91 789-309-5403 | rayeesamahmood8098@gmail.com
linkedin.com/in/rayeesa-mahmood | github.com/RayeesaMahmood | rayeesa-portfolio-xhyf.vercel.app

PROFESSIONAL SUMMARY

Full-Stack Developer with 3 published research papers and multiple production-deployed applications. Specialized in Anthropic Claude API integration, designing intelligent systems using LLM capabilities, and building scalable REST APIs. Experienced in Python, JavaScript, and Firebase solutions. Led technical training for 100+ students and co-organized 2 state-level hackathons with 50+ teams.

TECHNICAL SKILLS

Languages: Python, JavaScript, Java (Intermediate), SQL

Anthropic Claude: Claude API Integration, Prompt Engineering, LLM-Based Workflows, Agentic Systems

Frontend: HTML5, CSS3, JavaScript, Responsive Design, UI/UX, Figma

Backend & APIs: Python (Flask), Node.js, REST APIs, Firebase, SQL, NoSQL

Cloud & DevOps: Vercel, Netlify, GitHub, CI/CD, Version Control

PROFESSIONAL EXPERIENCE

Technical Head

CodeWave Hub Community, Lords Institute of Engineering and Technology | **Feb 2023 – Jul 2025**

- Designed and led **Python fundamentals training** reaching 100+ students across 3 batches, reducing onboarding time by **30%** through structured lab guides
- Co-organized **2 Telangana state-level HackPrix hackathons**, managing 50+ teams and coordinating technical infrastructure
- Mentored junior developers on full-stack web development, REST API design, and deployment best practices

Web Development & Python Intern

IntenCode, Hyderabad | **6 Months**

- Developed client-facing responsive web pages using **HTML5, CSS3, JavaScript** with cross-browser compatibility
- Built **Python automation scripts** for data processing and reporting, reducing manual time by **40%**
- Collaborated in Agile team of 5, participating in sprint deliverables and peer code reviews

Full-Stack Web Development Intern

PANTECH, Lords Institute of Engineering and Technology | **6 Months**

- Developed and deployed **2 full-stack web applications** using Python, Firebase, and JavaScript
- Gained hands-on experience with CI/CD pipelines, Vercel deployment, and DevOps practices

PROJECTS & APPLICATIONS

Clinical & Health Insurance Workflow Automation System

Python • REST APIs • Multi-Agent System Architecture

- Architected **multi-agent system** to automate administrative workflows across clinical and health insurance platforms
- Designed modular intelligent agents for claims validation, appointment scheduling, and patient record synchronization
- Published peer-reviewed research paper (DOI: [10.6084/m9.figshare.32041392](https://doi.org/10.6084/m9.figshare.32041392))
- Live: medi-core-neon.vercel.app

RayCare – Hospital Queue Management & Patient Tracking System

Firebase • JavaScript • HTML/CSS • Vercel

- Built real-time hospital queue management with emergency booking and live patient tracking; **sub-1-second** Firebase synchronization latency
- Engineered full frontend architecture and Firebase backend for concurrent multi-user data storage
- Published research paper (DOI: [10.6084/m9.figshare.30545999](https://doi.org/10.6084/m9.figshare.30545999))
- Live: raycare.vercel.app

AuraOS – Vision & Voice-Enabled System Control

Python • OpenCV • MediaPipe • Speech Recognition

- Developed computer vision system enabling **hands-free interaction** through voice commands and hand gesture recognition
- Achieved **96% accuracy** on custom gesture recognition; integrated multimodal intent recognition and workflow automation
- GitHub: <https://github.com/RaveesaMahmood/kanz-Hackathon>

Business Website – Bizzapt Enterprises

HTML5 • CSS3 • JavaScript • Netlify

- Developed responsive business website optimized for mobile and desktop viewports
- Deployed on Netlify within 2-week timeline with focus on service presentation and cross-device engagement
- Link: <https://bizzapt.netlify.app/>

RESEARCH PUBLICATIONS

- AI-Agent Framework for Clinical and Health Insurance Workflow Optimization – Published 2026 (DOI: [10.6084/m9.figshare.32041392](https://doi.org/10.6084/m9.figshare.32041392))
- RayCare: Hospital Queue Management System – ORCHIDS International Conference (DOI: [10.6084/m9.figshare.30545999](https://doi.org/10.6084/m9.figshare.30545999))
- Multi-Agent Framework for Real-Time AQI Monitoring – International Conference on Emerging Technologies (DOI: [10.6084/m9.figshare.30933533](https://doi.org/10.6084/m9.figshare.30933533))

CERTIFICATIONS & TRAINING

- **Anthropic Claude Course Completion** – LLM capabilities, API integration, and application development using Claude
Link : <https://verify.skilljar.com/c/ini7iatx2u29>
- ICT IBM SkillsBuild
Link: <https://skills.yourlearning.ibm.com/certificate/PLAN-7A1C23D574F6>

EDUCATION

B.E., Computer Science Engineering

Lords Institute of Engineering and Technology | Expected May 2026 | **GPA: 8.66/10**

Intermediate (MPC)

Iqbalia Junior College | 2020–2022 | **GPA: 8.8/10**

LEADERSHIP & COMMUNITY

- **Treasurer, IEEE Student Branch** (2023–2025) – Budget management and coordination for technical workshops and speaker sessions
- **Documentation Head, Lords E-Cell** (Sep 2023–Dec 2024) – Event documentation and coordination for innovation events
